

SONICS SHOUTOUT WEEK 9 UPDATE

Design Team

This week, design team worked on adding weight reduction to the CAD models of the robot. Our new members have also been learning how to scout match events on our scouting app.

Competitions In Sight

With our first competition this week, our team is finishing up with weight reductions, minor debugging and wiring. Overall, spirits are high and everyone is anxiously awaiting this Friday.

Build Team

This week, build finalized the robot with all the weight reduction. They spent the week removing some parts of the robot to add weight-reduction.

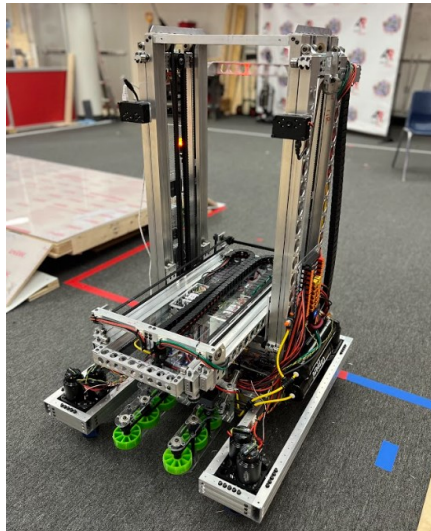

Sponsor Shoutout

We are happy to recognize one of our sponsors, Century Driving School. This year they've generously come alongside us with a financial donations for both our high school and middle school teams.

Allendale Robotics thanks you! Be sure to keep checking your inboxes for our weekly updates!

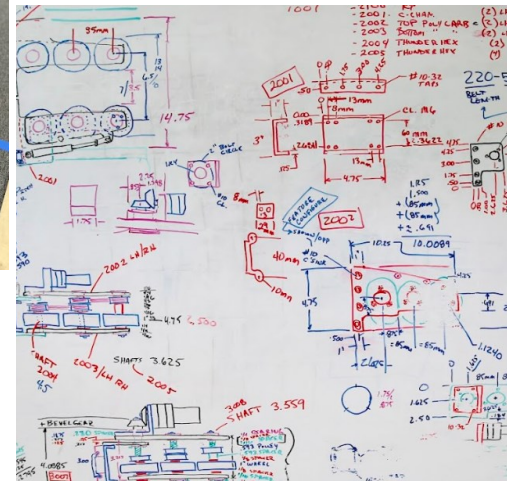

Fabrication Team

Fabrication has been busy manufacturing the parts with the updated weight reductions. They also have been helping build team assemble them back into the robot.

Programming/Wiring Team

While the robot is still under minor construction, the programming team has become the wiring team. As the name suggests, this team is in charge of wiring all the motors, sensors and pneumatics on the robot.

Interested in sponsoring?

Our program is always welcoming new sponsors! If you think this is something your organization would consider, contact us at sponsorship@allendalerobotics.com or scan the QR code for more details.

THANK YOU SPONSORS FOR YOUR SUPPORT
