

TRISONICS EVENT 1

The TriSonics ARE Lakeview District Champions!

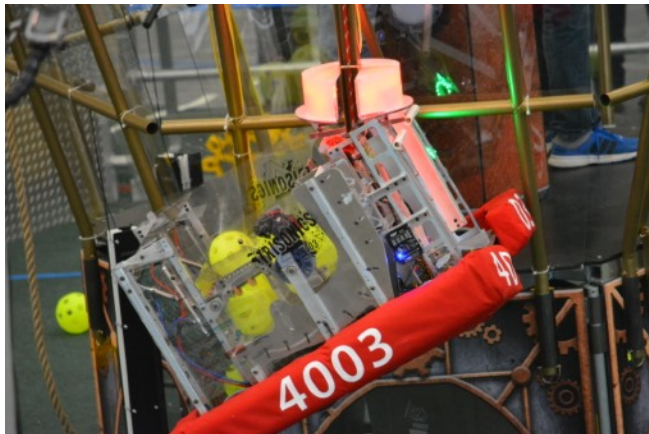

This weekend, in week 1 of competition season, the TriSonics come back to Allendale with a blue

banner flying loud and proud. The students had a rough start on Friday to the competition, but quickly bounced back on Saturday in tremendous ways. This win could not have been made possible without our amazing students, mentors, and sponsors!

Pictured above, TriSonics students and mentors posing after our big week 1 win.

We had a rough start to the Lakeview District competition. The hopper of our robot was made the Thursday before competing and there were some bugs to be fixed. After lunch, our tremendous Chairman's presentation team presented our amazing story to the judges.

Finishing up our qualification matches on Day 2, we finished with a record of 7 wins and 5 losses. For the elimination rounds, we got first picked by the 4th seeded team, Team 4327 Q-Branch, from Lakeview. Then, from our amazing new electronic scouting, we found a diamond in the rough, when looking for a 3rd alliance member. We chose to go with a team from Three Rivers, Team 5204 Robocats.

The last match of Day 1 was the first time we climbed on the rope (shown to the left). At the end of Day 1, we ended in 16th place out of 40 teams attending.

After losing our first finals match, we ended up coming back to win the next two matches and becoming the 2017 Lakeview District Champions! With that being said, we have a lot of modifications in mind for our next district event. From March 24 to March 25, we will be competing in the West Michigan District Competition at the Grand Valley State University Allendale Fieldhouse.

Come and check us out!!!

THANK-YOU 2017 SPONSORS!
