

TRISONICS PRE-SEASON

The TriSonics would like to share what we have been up to! Our off-season has been very busy. We have helped with our 3 younger programs: Jr. FLL, FLL, and FTC. This newsletter will be highlighting their success up until this point. This letter will also explain what the FRC team is doing to prepare for this upcoming season.

Pictured above, the HexaSonics 2017-18 team and robot after winning the State Championship.

Junior FIRST LEGO League

Junior LEGO League had 1 team this season and all 6 students on the team worked really hard this season. They made models from moving boats to a clear water tower which pushed water out of it! The judges at the event had nothing but nice things to say about the team.

FIRST LEGO League

Every FLL team in the Allendale Robotics program made it to the State Championship this season. The teams won three awards so far, including the Project award (twice) and the Mechanical Design Award.

FIRST Tech Challenge

The FTC team just won the Michigan State Championship on December 16 and is currently working towards getting ready for the Super Regional Event on March 15-17 in Iowa.

FIRST Robotics Competition

This is the first week of our build season. The FRC kickoff and game announcement was on Saturday, Jan 6, and the team is now working on brainstorming ideas for the robot and coming up with strategies for the upcoming challenge: FIRST Power Up!

THANK-YOU 2018 SPONSORS!
