

# SONIC SHOUTOUT COVID-19

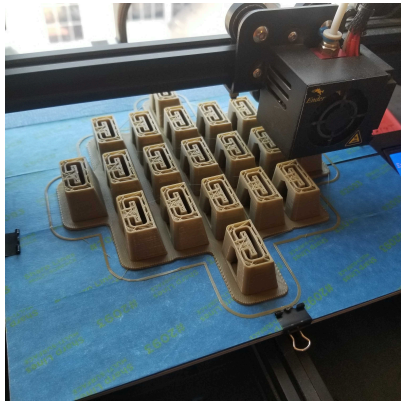

## What We've Been Up To

Despite the COVID-19 outbreak, our team is continuing to put our best foot forward to help out the community in this trying time. Allendale Robotics is participating in the 1 Million PPE Challenge to provide personal protections such as face shields, face masks, safety glasses, and ear savers to our nurses, doctors, and first responders on the frontlines of this crisis. To accomplish this, we've partnered with many of our sponsors to help us create parts and equipment.

93 face shields, 10 5mm Bias tape makers and 157 4mm Bias tape makers printed and sanitized! This was our first donation.

## Thank you!

We would like to thank all of our sponsors who have stuck with us even in these challenging circumstances. We wish you all the best, and we hope to continue working with you in the following seasons. A special thanks Hybrid Machining, JR Automation, DeWys and the #3Dc19 initiative who have worked tirelessly to allow us to create visors, ear savers, and various other essential parts

## Our Second Donation

347 Ear savers, 13 bias tape makers, and 110 visor parts printed and sanitized!

## Our Third Donation

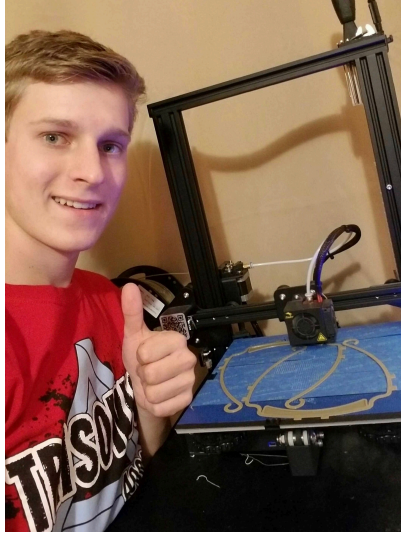

113 Visor parts printed and sanitized! This whole donation was done by one of our students, Dane!

## We are continuing to print parts!

Jaden, one of our students, with his 3D printer.

# We are hoping to make another donation soon!

Weston, one of our students, with his 3D printer.

# Thank You 2019-20 Sponsors!
