

SONICS SHOUTOUT EVENT 2

Day 0 – Drive Team

Our drive team, along with some other team members, arrived at GVSU Thursday night to do some pit scouting and start practice matches. By the end of this night, the team was geared up and ready for competitions.

Our home event

Just a week after the Standish-Sterling event, our team faced our home event hosted by GVSU. We were happy to help set up and tear down the field and pit stations.

Day 1

As soon as the entire team arrived, spirits were high and drive team was even more eager to start competing. With even more practice matches and experience with driving, our first matches went very well.

And the award goes to...

This event, The TriSonics were recognized for the 2023 Quality Award. This is a great honor for our team and we are very grateful for the judges considerations.

Day 2

Day 2 started out with a bang with our team competing in the first match of the day. Our matches went by in a flash, and pretty soon we were facing alliance selections and the playoff matches. We were the captain of the third seeded alliance, and made it to the lower bracket with our amazing alliance members.

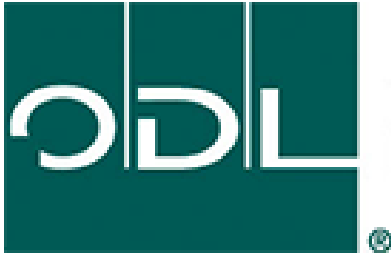

Interested in sponsoring?

Our program is always welcoming new sponsors! If you think this is something your organization would consider, contact us at sponsorship@allendaleroobotics.com or scan the QR code for more details.
