First Week Overview

It's kickoff week! The team met up and we watched the kickoff livestream that explained the game to the team. Everyone brainstormed ideas on what Trisonics should prioritize and evaluated the challenges for this season. The team broke into groups to divide and conquer objectives as the team discussed solutions.

Team Focus Design

Adrian Dana: "Design made a hanging prototype in SolidWorks and started making drawings for the build team."

On top of the hanging system the design team has been working on a intake system that moves game pieces such as Coral and Algae around the field. This is shown in the picture on the right.
