# Sponsorship Opportunities

2026–27 SEASON · FIRST® AND VEX® ROBOTICS, K–12

## Invest in the next generation of engineers, programmers and leaders.

Allendale Robotics is an all-volunteer STEM program at Allendale High School with a team for every grade. Our VEX programs build on one another from kindergarten through 8th grade: VEX 123 (K–1st), VEX GO (2nd–3rd), VEX IQ (4th–5th) and VEX V5 (6th–8th). Small teams mean every student gets real hands-on time with assembly and programming.

In high school, FRC Team 4003, The TriSonics, takes on the challenge of designing, building and programming a full-sized competition robot in six to eight weeks each winter. Along the way students learn CAD, machining and Python programming. They compete at two district events to qualify for the Michigan State Championship and, from there, the World Championship.

Your sponsorship pays for competition fees, materials, tools and travel, and keeps the program open to every family.

## WHY SPONSOR

- Brand visibility: robot, shirts, website and events
- A talent pool for internships and future hires
- Mentoring opportunities for your employees
- A visible commitment to STEM in your community
- Tax-deductible through Allendale Public Schools

## SPONSORSHIP LEVELS

| | | |
|---|---|---|
| DIAMOND | $5,000 | Company name announced at every competition |
| PLATINUM | $2,500 | Company logo and name on the competition robot |
| GOLD | $1,000 | Company name on team T-shirts |
| SILVER | $500 | Company name on all promotional materials |
| BRONZE | $250 | Company name and logo on allendalerobotics.com |

*Every level includes the recognition of all levels below it. No gift is too small.* Robot and event-announcement recognition applies to FRC Team 4003; sponsors of our VEX programs are recognized on team shirts, materials and the website at every level. Can't give financially? We also welcome materials, tooling, meals, gift cards and volunteer mentors.

**Where our graduates go:** 85 TriSonics have graduated since 2012 · 87% went to college · 64% in STEM · 8 returned as mentors.
